CAMERON'S

TIPSY TUMBLE

THE STRESS IS SHOWING FOR CAMERON DIAZ,
AS SHE TAKES A VERY PUBLIC FALL

Careful — that last step's a doozy! Truth be told, it wasn't just the rain, the curb and a pair of sky-high stilettos that conspired to make **Cameron Diaz** trip as she and husband **Benji Madden** left the West Hollywood restaurant The Nice Guy on Oct. 3. It seemed to be the cocktails that got her. "She could barely walk," says a source. "She was staggering all over the place. People thought it was funny at first."

What they didn't know: The couple,

married nine months, had been letting off a little steam in the wake of a very stressful time. As *OK!* has previously reported, Cameron, 43, has been secretly undergoing fertility treatments in an effort to get pregnant, and the regimen is taking a toll on both her body and her psyche. Benji, 36, "thought she needed to have some fun and let loose," says an insider, "and she totally did!" Fortunately, he was there to support her — literally and figuratively.

"Cam hates how grueling the IVF is," explains the source, "but she's willing to put up with it because she

really wants a baby. It's made her very bloated, and she isn't following her usual extremely healthy lifestyle. She's eating whatever she wants and then drinking in the evenings; she's pretty much given up exercising. She's just not feeling like herself."

Like most men in his position, Benji can do little to ease his wife's pain and stress. "He knows Cam isn't feeling well and does what he can to take care of her," says the source. "He's not sure how to handle the situation, so he's basically going along with whatever she wants." (Perhaps he should have thought twice, then, about the massive tattoo he's now sporting on his head. "Cam's not a fan of it," the insider says diplomatically.)

As the couple navigate this trying time, sources say they're in it for the long haul — but that doesn't make it any less difficult. "Cam never thought it'd be so hard to get pregnant," says the source. "She's emotional about everything right now."

OK! THE LATEST CELEB NEWS **INSIDER**

Amal Clooney has proven she can handle just about anything, from being married to A-list powerhouse **George Clooney** to taking on world figures as a human rights attorney. But finding time to sit down and have a meal? Not her strong suit. Sources say the Lebanon-born attorney has taken on a jam-packed, high-stress workload and is morphing into a malnourished waif. “Amal’s career is taking a huge toll on her body,” says an insider. “She barely has time to even think about eating — and George is really concerned.”

Recently fronting the international battle to end the 13-year jail sentence of Maldives’ former president **Mohamed Nasheed** — an undertaking some warn could put her in harm’s

way, since one of her fellow defense attorneys was stabbed in the head in connection with the case — Amal “figures skipping a meal or two is the least of her worries,” says a source. “She says she forgets to eat, which with her job is certainly believable.”

Harder to believe may be the 5’8” beauty’s weight, which celebrity weight loss and beauty expert Alicia Hunter estimates to have plummeted to under 100 pounds. “Amal has always maintained a svelte figure, but she looks to weigh no more than 90 pounds at this point,” Hunter says, noting recent photos of Amal’s suit hanging off her bony frame. “Compound her demanding career with the stress of being constantly in the paparazzi’s glare, and it’s a recipe for body-image disaster. Her health could be suffering.”

AMAL

WASTING AWAY

“Amal has always been an overachiever and doesn’t like to slow down,” says an insider, “no matter how much George begs her to.”

"Nobody could figure out why they'd go to a restaurant to buy avocados," says a source.

With their cash flow, supermodel **Miranda Kerr** and her boyfriend, Snapchat CEO **Evan Spiegel**, could have splurged on an avocado farm or two — but they opted for buying out a restaurant's entire supply of the creamy green fruit, to the tune of \$1,000!

Sources say the couple of three months were having brunch at L.A.'s Tavern restaurant on Sept. 28, when they suddenly decided to go way off-menu. "Evan asked the server how many avocados were in storage in the walk-in fridge," says a witness. "Miranda couldn't stop giggling and seemed a little bashful when Evan asked if the staff could box up all the avocados and load them into his car. But they left a generous tip for the inconvenience." Guac party at Miranda's place!

EVAN & MIRANDA AVOCADO BANDITS!

KIM NO MASTER OF DISGUISE

Talk about shady! Reality star **Kimberly Stewart** attempted to go incognito at a recent SoulCycle class — and failed in spectacular fashion! A witness says the daughter of rocker **Rod Stewart** "was acting as though she's a huge celebrity, hiding out in the back with her glasses on. She looked silly from the start, but it was even worse when she took a tumble off her bike!"

Kim ditched the shades and hopped back on, but "everyone was snickering," says the witness.

So much for hiding out! "By the time Kim got back on her bike, she was already busted," says a witness at SoulCycle.

KERRY'S WEIGHT WORRIES

Kerry Washington has lost the baby weight after giving birth to **Isabelle** last year — but sources say the *Scandal* star bristles at any mention of her postbaby body, even if it's positive. "She's sensitive about her weight, given her past problems with bulimia," says a source. "She doesn't want to slide back into bad habits." Still, her workouts are clearly working. The source says that while shooting a recent love scene with costar **Tony Goldwyn**, the actor picked her up and noted that she's "light as a feather these days." Kerry "shot him a look, like, 'Don't you dare go there!'" Shut down by Olivia Pope herself!

TONY SLAMS KIM

Dancing with the Stars pro Tony Dovolani is calling out his cha-cha-cha partner, Kim Zolciak, who exited the show in dramatic fashion after suffering a minor stroke in September. After explaining that some early signs — headache, dizziness, prominent veins — had eluded them both, the ballroom dancer implied that Kim, 37, was too out of shape to excel on the show. “Dancing with the Stars isn’t something you just blink at,” he told OK!. “Let [Kim’s stroke] be a warning. You need to prepare yourself. So for future celebrity contestants out there, get on a treadmill, start working out before you come here, and get checked out by a doctor. Especially if you aren’t used to that sort of physical activity.” Let’s not high-kick her while she’s down, Tony!

Kim, pictured in the hospital after her stroke, wrote fans, “My heart is so heavy not being on the set today of DWTS with everyone.”

HUGH QUITTING HOLLYWOOD?

The Boy from Oz yearns to go home again. Though his rep denies it, an insider says Hugh Jackman “misses the normality” of life in Australia and that he and wife Deborah-Lee Furness want to raise their kids, Oscar and Ava, in their homeland. “Hugh is nervous about the shift, but he’s a big enough star that he’s set for life no matter where he lives,” says the source.

JESSICA’S SHRINKING ASSETS

Jessica Simpson is about to dash the fantasies of men everywhere — including her husband, Eric Johnson — and get a breast reduction. “She’s lost so much weight that her body’s out of proportion and she’s having back pain,” says a source. “She wants to go down to a C cup.” Because Eric finds Jessica’s chest “a huge turn-on,” adds the insider, “she’s promised him it won’t be too drastic.” Stay tuned for the results!

CHELSEA: ROSIE'S A PHONY!

Rosie is "trying to figure out if there's any hope for fixing her relationship with Chelsea," says an insider.

Life with Rosie has been anything but, if you ask **Rosie O'Donnell's** adopted daughter **Chelsea**. In a recent interview that Rosie's rep calls "heartbreaking on every level," the 18-year-old, who claimed she didn't run away in August but rather was kicked out of the house, has blasted her estranged mother for smoking weed ("Not around us," she said, "but the whole house smells like it.") and isolating herself from her kids, leaving them to be raised by nannies. In public, Chelsea said, Rosie "will put this big smile on her face and try to be funny.... I had a hard time with that. It's like two different people."

Chelsea, who's now living with 25-year-old Steven Sheerer, a man she met on a dating site (and with whom she was found when Rosie reported her missing this summer), has said she's "happier than I've been in years." Meanwhile, a source tells OK! that "losing all control of Chelsea really frustrates Rosie. She thought that once Chelsea stepped into the real world and needed money for things, she'd come back home. But there's been too much turbulence between them for that."

COUPLES NEW

Sandra Bullock should be on cloud nine, thanks to her recent adoption of a little girl — but her joy has been tempered by nagging doubts about her budding relationship with photographer **Bryan Randall**. According to a source, Bryan, 49, was dating his 23-year-old ex, **Paris St. John**, during the early stages of his relationship with Sandra — and may still be seeing her.

In a September interview, Paris stated that she'd broken up with Bryan before he met Sandra, 51, who hired him to shoot her son **Louis'** fifth-birthday party in January. However, the model and aspiring singer was posting Instagram pics of herself with

Bryan as recently as May. "Bryan kept Paris in the picture as a backup plan," the source says, adding that the photog actually encouraged his ex to say they'd ceased all contact. "Now he's trying to cover his tracks."

The source notes that Sandy's friends, initially thrilled that she'd entered into her

first relationship since her devastating split from cheating husband **Jesse James** in 2010, now worry that Bryan is just using her — and are quick to remind her of his past troubles with addiction and arrests.

"Bryan has struggled in his career and his private life, and now he's with a huge star," the source says. "It's not hard to see what the attraction is."

Though she told an interviewer she hadn't been in touch with Bryan since their January split, Paris posted this photo with him in April.

Bryan CHEATING ON SANDY?

Ashton's GIFT TO IN-LAWS

A source says Ashton spent more than \$100,000 to spruce up Mila's parents' home.

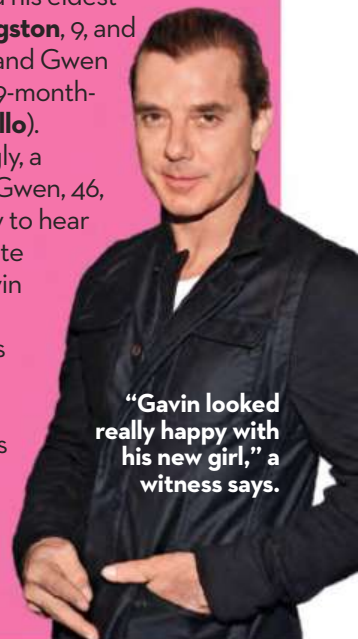

HGTV should really give **Ashton Kutcher** his own show. Just five months after he renovated his mother's house in Iowa, Ashton has done the same for wife **Mila Kunis'** parents, overhauling the kitchen and bathrooms of their West Hollywood pad and adding a nursery, as a thank-you for their frequent babysitting services. Ashton, 37, and Mila, 32, were adamant that they didn't want a nanny to look after their daughter, **Wyatt**, 1. But **Mark** and **Elvira Kunis** have stepped in to provide tons of help, even watching the baby overnight. "Mila's mom was so emotional when she saw the house," says a source. "Ashton thinks they really go above and beyond the call of grandparent duty, so he wanted to make a grand gesture."

Gavin Rossdale MOVING ON

Although **Gavin Rossdale** and **Gwen Stefani** just filed for divorce in August, the Bush frontman seems to be rebounding from his 13-year marriage already. On Oct. 1, Gavin, 49, was spotted dining at Shu Sushi in Beverly Hills with a pretty brunette and his eldest children **Kingston**, 9, and **Zuma**, 7 (he and Gwen also have a 19-month-old son, **Apollo**).

Unsurprisingly, a source says Gwen, 46, wasn't happy to hear about the date and told Gavin they need to discuss who's introduced to their kids: "The split has been hard on the boys, and she says he's making it worse."

"Gavin looked really happy with his new girl," a witness says.

Tyga has scolded Kylie for posting Snapchats of him.

Kylie's CRAZY JEALOUSY

Since she turned 18 (and, y'know, became legal), **Kylie Jenner's** been flaunting her relationship with **Tyga**, 25, online every chance she gets. But a source says she's overcompensating for their problems — namely, that Tyga's "fed up" with her controlling ways. "He thinks she's nuts, and

he's only with her for publicity at this point," the insider says, adding that Kylie checks the rapper's phone, has him followed and has even asked friends to hit on him to test his loyalty. "As he pulls away, she gets more clingy," the source says. She's got a trust fund... and trust issues!

A source says there's "nothing serious" between Rumer and Chris, but adds that he's "ready to get back in the dating game."

It takes two to tango — and nobody knows that better than former *Dancing with the Stars* contestants **Chris Soules** and **Rumer Willis**! The season 20 competitors had floor seats at a N.Y. Knicks game on Oct. 7, and it looked to be more than just a friendly reunion, as they laughed and touched each other playfully throughout the game. Though Chris, 33, was still engaged to **Whitney Bischoff** when he and Rumer, 27, met back in March, they're both single now and "testing the waters," a source says, adding, "They've remained close and really enjoy each other's company." Rumer's rocker-chick vibe marks a departure for Chris, who seems to prefer bubbly blondes, but the source says his attraction may stem from another source: "He likes attention and wants to date someone more famous than him."

Irina to Bradley: **LEAVE J LAW ALONE!**

Bradley Cooper and his frequent costar **Jennifer Lawrence** are about to embark on a promotional tour for their latest movie, *Joy*, but it sounds like there could be some pain this time around. Bradley's girlfriend, **Irina Shayk**, 29, doesn't appreciate his and Jen's chummy relationship, so she's insisted on tagging along — and she isn't keen on any group hangs with Jen, 25, either. While Bradley, 40, insists they're just friends, an insider says, "Irina doesn't trust Jen. She wants to be by Bradley's side at all times."

A source says Irina is "insecure" about Bradley's close friendship with Jennifer.

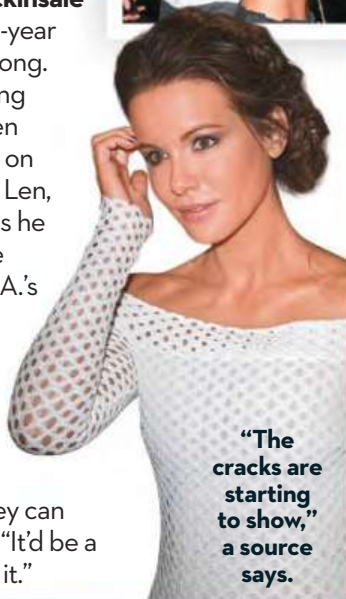

Adam MOVING MOM IN

What's one way to make your Bel Air mansion feel small? Living with your mother-in-law. **Adam Sandler** wants his mom, **Judy**, to move in, but his wife, **Jackie**, would prefer she remain in her own nearby L.A. pad. His rep denies it, but a source says Adam, 49, "wants Judy as close as possible, because he realizes she's getting older" — and he doesn't see why Jackie, 41, would mind. The more the merrier!

Len BETRAYS KATE?

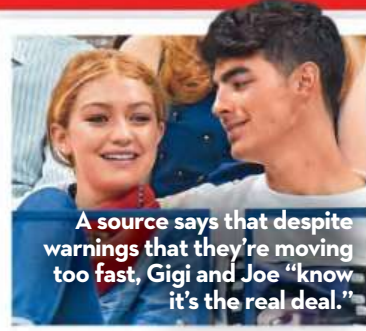

The state of **Kate Beckinsale** and **Len Wiseman**'s 11-year union doesn't look strong. Kate, 42, wasn't wearing her wedding ring when she landed in London on Sept. 24; a week later, Len, 42, was also ringless as he chatted up a brunette outside Bar 1200 at L.A.'s Sunset Marquis hotel (above). "They've been drifting apart due to separate schedules," a source says, but friends are hoping they can repair their marriage. "It'd be a shame if they can't fix it."

"The cracks are starting to show," a source says.

GIGI & JOE ELOPING!

Back when **Gigi Hadid** was just 13, **Joe Jonas** asked her out — but she turned him down. Now that they're older and wiser, Joe, 26, finally has his dream girl, 20, on his arm, and he's eager to make it official. A source says the "very in love" couple plan to run off to the Caribbean to tie the knot, and "nothing will stop them." Guess this relationship was worth the wait!

A source says that despite warnings that they're moving too fast, Gigi and Joe "know it's the real deal."

LENA & JACK ON THE ROCKS!

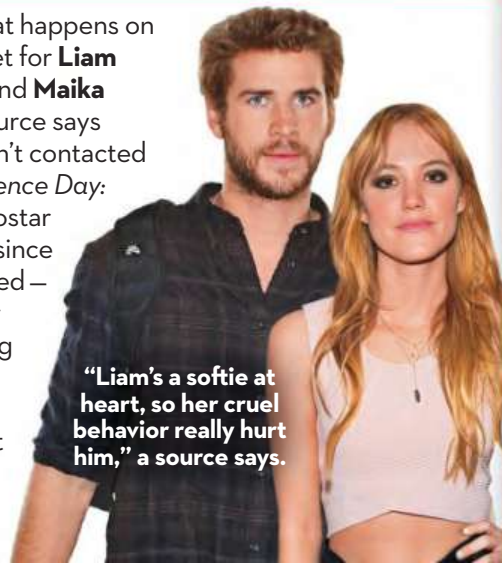

The source says Lena's neediness has "been wearing on Jack."

Although fans of hipster power couple **Lena Dunham** and **Jack Antonoff** are eagerly awaiting their engagement, their three-year relationship is hanging by a thread. They said they'd marry when gays had the same right, but a source says Jack, 31, is fed up with Lena, 29, "pressuring him for a ring, and he told her he needs some distance."

LIAM DUMPED!

Looks like what happens on set stays on set for **Liam Hemsworth** and **Maika Monroe**. A source says Maika, 22, hasn't contacted her *Independence Day: Resurgence* costar and beau, 25, since filming wrapped — and the studly Aussie's feeling stung: "She's clearly moved on, and he just feels stupid."

"Liam's a softie at heart, so her cruel behavior really hurt him," a source says.

BABY DRAMA

With Teen Girlfr

Welcome to Miami:
Scott and Lindsay
got jiggy with it
earlier this month.

Let The Battle Begin

Kourtney may have finally stopped fighting for her relationship, but her war with Scott is far from over. After finding out about his relationship with a girl half her age, Kourtney, 36, “canceled Scott’s credit cards and cut him off financially,” says an insider, who adds that if rumors about Lindsay’s pregnancy prove true, she’s prepared to sue Scott for sole custody of her kids. Scott’s response, according to a source? “The Kardashians can go to hell.” But Kourtney’s used to dealing with his temper and empty threats — and is prepared to wield her Kardashian clout to keep him from doing more damage to her family. “She plans to put an end to all the perks Scott got from being connected to the Kardashians,” says an insider. “That means no more cars, hotels or clothes, and she’ll ruin any product endorsements he may be cashing in on. This is the very last straw.”

Since finally getting the boot from **Kourtney Kardashian**, his long-suffering girlfriend of nine years, wannabe playboy **Scott Disick** has surprised exactly no one by jetting around on expensive vacations and partying until all hours with barely legal models.

But one new development might come as a shock: In the midst of his latest fling with 18-year-old Canadian model **Lindsay Vrackovnik**, she told Scott she fears she may be pregnant — and he was barely fazed. In fact, a

source says that following a series of carefree party marathons, including an all-nighter in New York City and a boozy beach vacation in Miami, Scott, 32, was uncharacteristically open to the idea of starting a family with Lindsay — anything to distance himself from the Kardashian Kamp.

“Lindsay was terrified” to tell Scott that she feared she could be pregnant, says a source, “but he was totally fine with the prospect. He’s clearly living in a fantasy world, because it’s as if he’s forgotten he already has a family, and he’s not exactly father of the year. But he and

LINDSAY LOVES TO PARTY, AND THAT'S EXACTLY WHAT SCOTT LOVES TO DO

Lindsay had instant chemistry from the moment they were introduced."

Accordingly, they've reportedly had plenty of boudoir time in their short courtship, which has left Scott — who often complained about his and Kourtney's sex life and their arrangement to sleep in separate bedrooms — giddy and carefree.

"Scott's not used to getting so much action. But he doesn't always use protection, and now

it's resulted in a scare," says an insider, who adds that Scott feels so energized with Lindsay, he'd actually consider marrying her if a pregnancy test came up positive. "Scott told her he'd do the right thing, though he's probably telling her a lot of things right now."

While Scott, long known for acting on impulses, may just be flush with new-love endorphins and not quite thinking clearly, sources say he

Meet Lindsay!

WHO IS THE TEEN PARTY
QUEEN STEALING SCOTT'S HEART?

That girl wearing next to nothing under a full-length fur, mugging beside "Lord" Scott Disick like it ain't no thing? That's Lindsay, the 18-year-old Canadian beauty who finished high school in May (see: her, above, second from right, celebrating graduation with pals) and boasts a modeling contract with a Toronto agency. She moved to New York City to study at Parsons School of Design (for photography, drawing and painting) and has said of her art, "Most of my inspiration comes from my environment and the people I'm surrounded by." Booze-and-cigarette still-life, anyone?

feels certain about one thing: he and Lindsay are more compatible than he and Kourtney ever were.

"Lindsay loves to party, and that's exactly what Scott loves to do," says an insider. "Kourtney berated him for years about his lifestyle, and now he's found someone who wants to stay out until 6 AM, just like he does, and doesn't bat an eye at going out night after night."

Lindsay has insisted that she and Scott are just friends — and that she has a boyfriend back home in Canada — but friends say Scott has swept her off her feet. "He's flown her all over in a private jet, and she'll drop anything to be with him," the source says. "She's telling friends that Scott told her he'd be willing to start a whole new life with her."

KOURT OF LAW

Scott has often been an engaged father with **Mason**, 5, and **Penelope**, 3; but when Kourtney announced last year that she was pregnant with **Reign**, 9 months, Scott was unabashedly thrown for a loop. "You just keep suckering me into these kids," he told Kourtney on *Keeping Up with the Kardashians*. "I can't handle all of this responsibility... I just can't take care of more kids." He later admitted to **Khloé** that, following the sudden deaths of his parents just months earlier, he didn't feel equipped to care for a new baby. "I barely feel like I can take care of myself," he said. "I'm hanging on by a string here."

His depression over his parents seemed only to compound his addiction problems, and a stint in rehab after abusing pain pills left his relationship with Kourtney more on edge than ever.

But that was nothing compared to where it is now. "Kourtney can't even look at Scott without feeling completely disgusted," says a source. "She wishes she could just be rid of him, but she fears his bad behavior will be haunting her forever."

OK!

Finally, a girl with Scott's passion for partying! (So what if she's a college freshman?) Scott and Lindsay's epic first night together in NYC started on Sept. 30 with a pregame at Scott's luxe hotel, the Trump Soho,

progressed to a casual downtown bar and then moved along to a house party. They made a requisite stop at 10Oak, Scott's fave nightclub — and the source of a big chunk of his promotional income — before moving on to perennial hotspot Soho House. They finally emerged to greet the sunrise on Oct. 1.

"Even with three children at home, Scott has never had a problem with staying out till all hours of the night," says an insider.

ANNE'S BABY

**LOVELY
IN LACE**

At the London premiere of *The Intern*, Anne sported the hottest accessory of the season: a baby bump!

Between her designer gown, emerald jewels and wide smile, **Anne Hathaway** was bound to look radiant at the London premiere of her new comedy, *The Intern*.

But the Oscar-winning actress, 32, was sporting an extra glow — and a conspicuous bump under her snug lace dress. Sources say that yes, it's what it seems: Anne and her husband of three years, **Adam Shulman**, are expecting a baby!

"They've been trying for a while now, so to finally have some good news is incredible for them," says an insider. "It came as a surprise, because they'd actually given up recently, worried they were just stressing themselves out over it — and then, of course, it happened!"

Anne has wanted to be a mom "since I was 16," she once confessed, adding, "I had to find a baby daddy first, which I now have." She often gushes about her jewelry designer

hubby, 34, recently beaming as she described how marriage had elevated their relationship. “Something shifts, and I don’t know what it is,” she said. “I’m his and he’s mine.”

She’s also enjoying a personal renaissance of sorts, having finally acquired the self-esteem she lacked early in her career. “I listened to [online haters] at first,” she told **Ellen DeGeneres** last year. “I couldn’t help it. Then I realized... I hadn’t learned to love myself yet.” She continued, “I feel like I arrived in a place where,

maybe not every minute of every day, but way more than I used to, I have a tremendous amount of love and compassion for everyone else — and best of all I have it for myself, which I never enjoyed before.”

Much of that is undoubtedly thanks to Adam. And ever since she met him — after disentangling herself from a deceitful courtship with previous boyfriend of four years **Raffaello Follieri**, who served time in jail for fraud shortly after their split — Anne has been eager to start her family.

“It’s something she’s wanted for the longest time,” says an insider. But as much as she’d like to shout it from the rooftops, sources say she’s keeping the news under wraps for now. During red carpet interviews for *The Intern*, Anne reportedly declared maternal questions off the table.

“She was petrified she’d slip up,” says a source. “She knew it might make her seem like a diva, but it was a risk she was willing to take.” The source adds that Anne admired how **Eva Mendes** shielded her pregnancy from the public for seven months.

But Anne might have a hard time hiding a few decidedly new habits. Sources says she’s given up favorite sushi rolls, has slowed down her rigorous workout routines and has started steering her career toward off-camera production work. “Anne won’t give up work entirely, but she doesn’t want to have such extreme hours on set,” says an insider. “She’s already making lots of preparations for when the baby arrives. But for now, she and Adam are enjoying having their little secret.”

OK! UPDATE

HE'S JUST NOT THAT INTO HER
Busted! Corey appears to be checking his texts as Kris leans in for a smooch.

KRIS & COREY

FAKING IT FOR THE CAMERAS?

THERE ARE REPORTS THEY'RE ENGAGED, BUT SOURCES SAY KRIS JENNER AND COREY GAMBLE'S LOVE IS JUST FOR SHOW

They say that living well is the best revenge. But in the wake of **Kris Jenner's** divorce (not to mention the news that her ex, formerly known as **Bruce**, would henceforth be living as **Caitlyn**), the momager par excellence has been obsessed, a source says, with making sure that the general public sees her not only as living well but also as “an attractive and sexy woman.”

“After the breakup, she was afraid that people would think she was too old for love,” the source says of Kris, who turns 60 next month. Enter **Corey Gamble**, 34, a member of **Justin**

Bieber's management team, who's been dating the Kardashian matriarch for almost a year. “Kris desperately wanted a guy to make her look good,” the source says. “Unfortunately, she chose the wrong guy. These days, he's mostly making her look ridiculous.”

ALL THE WRONG REASONS

On the surface, Corey seems like a decent piece of arm candy, if nothing else: A graduate of Morehouse College, he's tall, dark and handsome; and thanks to his job, he has some experience with Kris' high-wattage lifestyle. But as their relationship progresses — the latest buzz is that the pair are mulling marriage, and he was

recently spotted wearing a ring on his left hand — whispers about its authenticity have gotten much louder.

While on the family's reality show, *Keeping Up with the Kardashians*, **Kim** has complained about overhearing her mother's sex sessions through the walls, the source insists that the couple “barely touch each other unless someone is watching” and that the whole thing is “smoke and mirrors. The truth is that Corey is more like a shopping buddy for Kris than a lover.”

In fact, the source says flatly that Kris is “not Corey's type,” adding that there's speculation he actually might be more into men. “I've heard that he's on [the gay dating app] Grindr.”

HE'S A FASHIONISTA!

So why would he be spending so much time with Kris? It's not hard to guess what Corey stands to gain from a relationship with such a powerful woman. "He's getting exposure," the source confirms, as well as "free designer clothes and even a generous allowance in exchange for being at her beck and call." He also gets to accompany Kris to celebrity-magnet events like Paris Fashion Week and **Kanye West** concerts. "He's very ambitious," the source says. "When their fling is over, he wants to be rich and famous. And if he has to be Kris' paid boyfriend or TV husband to get there, he's happy to do it."

OK!

Even before he started dating Kris, Corey was into fashion: The couple first met at Givenchy designer **Riccardo Tisci**'s 40th-birthday party. "He's more into it than she is," the source says, a claim that seems to be borne out by Corey's look-heavy Instagram feed. For him, meeting people like designer **Karl Lagerfeld** is the best perk of his new relationship. Notes the source: "He actually begged Kris to take him to Paris."

WILD CHILD MILEY CYRUS IS EXHIBITING EVER-WEIRDER BEHAVIOR – AND NO ONE CAN GET THROUGH TO HER

Miley showcased photos of her dead pets and shed tears while singing about them on SNL.

SOME OF MILEY'S RECENT INSTAGRAMS

Okay, the pink earmuffs are headphones, but throw in thumb-sucking and the effect is kinda... creepy.

Just one of many photos and references to smoking up. "Weed is the best drug on earth," she's said.

Opting for a messy sugar high with a pal. "Best friends love cake!" she wrote.

There's a lyric from **Miley Cyrus'** new album, in the song "Slab of Butter (Scorpion)," that may be the truest she's ever penned: "Self control is not something I'm working on."

But while everyone can relate to that sentiment on some level, in Miley's case all the kooky outfits, bizarre Instagrams and party-hearty antics that once seemed just a phase in the 22-year-old's leap from Disney star to global phenomenon have those closest to her fearing for her health and safety. "Miley needs help," one insider tells **OK!**. "It's not too late for her to change, but it has to start now."

ROLLING STONED

Miley's increasingly erratic behavior was on full display as she prepared to host *Saturday Night Live* on Oct. 3. "She had gotten really sick when she licked a banana slug on a dare while camping with friends, and she had a full body rash that *SNL*'s makeup artists spent over an hour working to hide," says a source on the set. There was no effort made to hide her love of weed, however: "Miley chain-smoked blunts all week long — during readings, rehearsals, everything," the insider adds. "After she finished the show, she was so stoned her eyes were practically swollen shut."

Her embrace of drugs — in song lyrics, social media photos and even

live onstage — is nothing new, but Miley's stepped-up consumption has alarmed her parents, **Billy Ray** and **Tish Cyrus**. "It's gotten to the point where she is taking edibles, like pot candy, so that she can be high all the time without anyone really realizing it," says a source. "Miley's parents recently confronted her with their concerns, but she just laughed in their faces. She said, 'I'm stoned right now! And I love it. I don't have a problem.' Then she walked out on them."

EMOTIONAL RESCUE

Though Miley's said she champions weed and Ecstasy because "those are happy drugs — social drugs," insiders report that her private life is anything but happy. After the collapse in April of her romance with **Patrick Schwarzenegger**, 22, and a rumored dalliance with model **Stella Maxwell**, 24, that seemed designed for shock value, the singer's strongest emotional ties these days may be with her animals — dogs, cats and even a pig. "Miley is very weird where her pets are concerned," says a source. "It's as if she thinks they're human." Indeed, her new album, *Miley Cyrus & Her Dead Petz*, features songs dedicated to her dog Floyd, who was killed by a coyote, and her blowfish Pablow. "She lashed out at a friend for eating sushi in front of her after Pablow died," says an insider. "It was truly strange."

Now Miley's loved ones are gearing up for an intervention, hoping to strong-arm her into calming down and getting help. Says a source, "She clearly needs some serious therapy."

THE NEXT LINDSAY?

When *Saturday Night Live* creator **Lorne Michaels** took a look at Miley as she hosted the season opener, he was reminded of another troubled young talent. "Lorne has a sense of guilt for not intervening to help **Lindsay Lohan** when he saw she was careening off the rails," says an *SNL* insider. "He told Miley's mom that Miley's depressed and self-medicating at a scary level and that she needs rehab or a sober companion. He's worried about her."

Miley captioned this shot of her foot "DAY WELL DONE EwWwWw." We're down with that second reaction.

She bragged about lying in bed all day as she posted a photo of herself getting an IV vitamin infusion.

Miley and pal Katy Weaver made a series of videos of them feeding and playing with Miley's Poo Poo doll.

Costumed pets on parade. The middle pooch, wearing the sandwich, is called Mary Jane. Can't imagine why.

SELENA'S NEW CHAPTER

"Great music is sharing your story," says **Selena Gomez** of her new album, *Revival*, her first full-length release outside of Disney-owned Hollywood Records. With tunes like last year's haunting single "The Heart Wants What It Wants" and the sultry "Good for You," the record tells a tale of girl meets boy, boy breaks girl's heart, girl turns her pain into success. "The track is important, but I needed the lyrics to be more important," says Selena, who also executive-produced the album. On top of it all, the 23-year-old, here in Louis Vuitton, looks better than ever — eat your heart out, **Biebs**!

A bold red lip and a Le Vian ear crawler completed Jenna Dewan Tatum's rock-star look.

Product of the Week

The best part of this face oil isn't the seriously moisturizing pure cocoa butter or even the fine line- and wrinkle-fighting retinol. It's the proprietary Cetesomate-E complex that helps the formula penetrate deeply — and so quickly that there's never any greasy sheen.

RITA PROVES MORE IS MORE

Heavy turquoise and green shadows paired with a deep red lip sounds disastrous, but Rita Ora looked anything but at a recent NYC event. Jessica Scantlin, director of artistry at Blushington, shares why the makeup combo works: "First, Rita chose complementary — not clashing — eye shadow shades," she says. "She also stuck with a palette of deeper tones, which are classier and less clownish than bright ones." Finally, adding lipstick in a similarly cool tone actually helps tie everything together. "It comes across as finished and polished," she explains.

STYLE DICTIONARY

Strobing \strō-bing\ verb:
to illuminate facial features
with makeup

Like dance floor strobes, this makeup technique is used for serious brightening. It's similar in concept to highlighting, the art of using light colors to make certain features pop.

But "strobing is more radiant," says Viviana Martin, director of global artistry for Kevyn Aucoin (case in point: **Demi Lovato**'s cheekbones, left). Liquid highlighter works best and looks the most natural; dab it on cheekbones, the Cupid's bow and the bridge of nose.

BANGS ARE

LESS BLUNT AND LONGER THAN IN YEARS PAST, EYELASH-GRAZING FRINGE IS FALL'S HOT HAIR UPDATE.

HEAVY AND JAGGED

"Ciara's bob is edgier, with long, thick bangs," says Vanessa Ungaro of NYC's Lauren+ Vanessa salon. But fringe can be tricky to style. Ensure that the overgrown length looks purposeful, as on **Naomi Campbell** and **Selma Blair**, with Vanessa's blow-drying trick: "Use a boar-bristle brush and move it back and forth against the scalp in a crisscross motion. This helps the bangs to have a neutral root and lie flat without frizzy ends."

CIARA debuted her new, fashion-forward bangs at New York Fashion Week.

PIECEY AND LAYERED

Wispy bangs are the perfect compromise — they make a statement without getting too serious. Vary the intensity of the look by going either more or less choppy. **Hailey Baldwin's** thinner, longer bangs give off an effortlessly sexy vibe; **Halle Berry** and **Dakota Johnson's** thicker, softer bangs are youthful and feminine. “A texturizing spray helps to muss them up a bit,” says Vanessa. “You want the bangs to lay flat but not too flat.”

VIN DIESEL

FAT & FURIOUS!

We just can't stomach this look! Though he's known for his physically demanding movies, huge biceps and all-over muscled physique, actor **Vin Diesel** looked anything but buff while smoking on a Miami balcony on Oct. 6. The 48-year-old star seems to have an exaggerated case of "dad bod" — and perhaps for good reason: He welcomed

his third child, daughter **Pauline** (named for his late friend and costar, **Paul Walker**) in March. Hopefully, he'll start to shape up soon, as Vin himself recently shared that there will be a total of 10 flicks in the *Fast & Furious* franchise: "I promised the studio I would deliver one last trilogy to end the saga." Production on the eighth film begins next spring. Hit the gym, Vin!
